DETAILED ACTION

Election/Restrictions

This application is in condition for allowance except for the presence of claims 1-10 to an invention non-elected without traverse. Accordingly, claims 1-10 have been cancelled.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

1. Cancel withdrawn claims 1-10.

Allowable Subject Matter

Claims 11 and 13-15 allowed.

The following is an examiner's statement of reasons for allowance: the prior art taken alone or in combination fails to anticipate or fairly suggest the limitations of the claims, in such a manner that a rejection under 35 USC 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claim 11.

Specifically regarding claim 11, Davies et al. (5650876) teaches the state of the art of a pair of microlens arrays positioned to confront a display unit.

But, Davies et al. fails to explicitly teach a combination of all the claimed features including an attachment unit for detachably attaching a lens adapter to a communication terminal; an opening window formed on the attachment unit at a position confronting the display; and a panel unit for supporting the microlens unit and attached to the attachment unit in a manner moveable between a first position and a second position at which the microlens unit confronts the display unit and a second position at which the microlens does not confront the display unit, as claimed.

Specifically regarding claim 11, Snyder (6389268) teaches the state of the art of a lens adapter.

But, Snyder fails to explicitly teach a combination of all the claimed features including a microlens unit including a pair of microlens arrays and positioned to confront the display unit with a spacing substantially equal to a focal length of the microlens unit, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph P. Martinez whose telephone number is 571-272-2335. The examiner can normally be reached on M-F 7:00 AM to 3:30 PM.
